Be a good person, but don't waste time to prove it.

Good beginning makes a good ending.

Art is long, life is short.

Be just before you are generous.

Birds of a feather flock together.

Diamond cuts diamond.

East or West, home is the best.

Empty vessels make the most noise.

Health is wealth.

Haste makes waste.

No rains, no grains.

Time and tide wait for no man.

Barking dog seldom bite.

Knowledge is power.

Success is a slow process and quitting does not speed it up.

A winner is a dreamer who never give up.

Education is not preparation for life; education is life itself.

If you think education is expensive try ignorance.

Teachers open the door, but you must enter by yourself.

Education is the key that unlocks the golden door to freedom.

A man's mind, stretched by new ideas, may never return to its original dimensions.

A good education is a foundation for a better future.

Children must be taught how to think, not what to think.

Work hard, be kind and amazing things will happen.

Today is a great day to learn something new.

Your mind is a tool that creates your life through learning.

Never stop learning because life never stops teaching.

Success is just outside your comfort zone.

Having knowledge of education is a good thing but using it properly is the most important thing.

Believe you can and you will.

Do-what is right, not what is easy.

The time is always right to do what is right.

Train your mind to see the good in every situation.

Every moment is a fresh beginning.

Be your best, not the copy of the best of others.

Start before you are ready. Don't prepare, Begin.

you were born to be real, not perfect.

Kindness always come back.

Be a good person. But don't waste time proving to everyone.

Never stop being a good person because of bad people.

Every day is a chance to change yourself.

Be yourself, but always your better self.

Everyday is a new opportunity to change your life.

Opportunities don't happen you create them.

Every thing comes to you at the right time. Be patient.

The road you choose, you have to finish it.

Stop wishing. Start doing.

Success is the sum of small efforts respected day in and day out.

The future depends on what you do today.

The best preparation for tomorrow is doing your best today.

Try to be a rainbow in someone's cloud.

Always end the day with a positive thought.

Don't wait for good days to come. Make your days good.

Hope but never expect, look forward, but never wait.

A little progress each day adds up to big results.

Attitude is everything, so pick up a good one.

A beautiful day begins with a beautiful mindset.

Life is like a bicycle to keep you balance, you must keep moving.

A positive attitude toward life is always better.

The real opportunity for success lies within the person and not in the job.

A positive attitude will lead to positive outcomes.

A person who feels appreciated will always do more than is expected.

Imagination is more important than knowledge.

Change your thought and you will change your world.

If you want to be strong, learn how to fight alone.

The Secret to move forward is to start.

knowing isn't enough, we should apply it.

Education is not the filling of a pail, but the lighting of a fire.

The highest result of education is tolerance.

Every new day is another chance to change your life.

The purpose of our lives is to be happy.

Happiness is not a destination, it is a way of life.

The roots of education are bitter but the fruit is sweet.

Mistakes are part of the dues one pays for a full life.
